Through a collaborative effort with the National Association of BPO Professionals, BPO Standards Board (BSB) and top valuation providers such as eMortgage Logic, we are providing the revised version of the BPO Standards and Guidelines. The BPOSG provide a comprehensive framework for the preparation of Broker Price Opinions (BPOs) throughout the BPO industry, including suggested practices for the selection and utilization of comparable properties, pricing considerations, the use of photographs and ethical and competency considerations.

Since the initial release, BPOSG has been well received in the industry and the latest version ensures the efficiency, relevance, and viability of the standards and guidelines.

eMortgage Logic supports the education and training that NABPOP provides and encourages all of our partners to adhere to these standards and guidelines and become NABPOP certified. Ralph Sells, President and CEO, went on to say "the BPOSG has grown to be a collaborative effort by many industry professionals and has expanded in scope and user recognition. We feel the BPOSG it is important and imperative to the success of our partners in the field as well has our employees reviewing BPOs. The BPOSG is quickly becoming the industry Gold Standard for real estate and mortgage professionals. I'm pleased with its wide use and acceptance and we look forward to new changes and ideas from the community since the BPO Standards and Guidelines are a dynamic document meant to grow and evolve."
